BLAKE BROWN

SOFTWARE & CLOUD ENGINEER

Centennial, Colorado | (303) 570-5987 | brownblakecs@gmail.com
github.com/SEblakebrown | Portfolio

Software and cloud engineer with experience supporting enterprise data platforms, automating workflows, and building maintainable infrastructure. Hands-on experience with AWS, Terraform, Python, SQL, GitLab CI/CD, Databricks, and dbt.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C++, Java, HTML, CSS
Cloud & delivery: AWS, Terraform, GitLab CI/CD, Docker, Linux, Git/GitHub
Applications & data: React, dbt, Databricks, AWS Glue, Athena, ETL, data validation

PROFESSIONAL EXPERIENCE

DevOps Engineer (Contract) | Charter Communications / Spectrum

Greenwood Village, CO | January 2026 - June 2026

- Built and maintained AWS infrastructure with Terraform for enterprise data platforms.
- Developed SQL transformations and dbt workflows; used Python automation to support deployment and operational processes.
- Supported GitLab CI/CD and production troubleshooting across Lambda, Glue, Athena, IAM, EventBridge, and VPC services.
- Collaborated with engineering, QA, and infrastructure teams in sprint planning, backlog refinement, and code reviews.

Data Engineer Intern | Omega Environmental Technologies

Remote | 2024 - 2025

- Developed SQL queries and automated data workflows supporting reporting and business operations.
- Improved data integrity through query optimization and validation; built Python scripts to automate repetitive tasks.

IT Specialist | West Middle School

Fort Collins, CO | January 2025 - 2026

- Designed a ticketing system with asset tracking and improved IT documentation and inventory management.
- Resolved hardware, software, Windows, and network issues for students and faculty, including a school-wide Surface Pro graphics issue.

SELECTED PROJECTS

dbt Data Transformation: Designed reusable staging, intermediate, and analytics SQL models. Integrated dbt with Databricks and GitLab workflows, with automated testing and documentation.

MSE Data Platform: Supported AWS infrastructure and automated ETL workflows for enterprise reporting using Terraform, SQL transformations, and data validation.

EDUCATION & CERTIFICATION

B.S. Computer Science | Colorado State University, Fort Collins | August 2024
AWS Certified Cloud Practitioner
